Chapter 1 Introduction This course is about good programming, using the C++ programming language, for people who want to become professionals (i.e. people who can ...

Fundamentals Of Structured Programming - INPE

Structured programming is a programming paradigm aimed at improving the clarity, quality, and development time of a computer program by making extensive use of the structured control flow constructs of selection and repetition, block structures, and subroutines. It emerged in the late 1950s with the appearance of the ALGOL 58 and ALGOL 60 programming languages, with the latter including support for block structures. Contributing factors to its popularity and widespread acceptance, at first in ac
