In contemporary education, mathematics education is the practice of teaching and learning mathematics, along with the associated scholarly research.

Mathematics education - Wikipedia

Mathematics arises from many different kinds of problems. At first these were found in commerce, land measurement, architecture and later astronomy; today, all sciences suggest problems studied by mathematicians, and many problems arise within mathematics itself.

CS-102 Logical Organization of Computers Aims There are two views of computer architecture. The traditional view, dating back to the IBM System/360 from the early 1960's, is that the architecture of a computer is the programmer-visible view of the machine, while its implementation is the province of the hardware designer.
