investigations in number data pdf

Investigations in Number, Data, and Space [®], published by Pearson Scott Foresman, is an activity-based K-5 mathematics curriculum designed to help students understand number and operations, geometry, data, measurement, and early algebra. Each instructional unit focuses on a particular content area and lasts from two to five-and-a-half weeks. The curriculum encourages students to develop

Investigations in Number, Data, and Space[®] - ERIC

The title of this program, Investigations in Number, Data and Space, reflects the view that mathematics in elementary school is more than arithmetic. In the elementary grades, students need to develop a foundation in several key content areas of mathematics: number, data, and geometry, or space. The Investigations curriculum also includes activities based on recent research on young children ...
